“The Keratin Smoothing System is everything they said it would be! It is amazing. I don't have to do anything to my hair in the morning to get the frizz out. I highly recommend it.”

\*KATHRYN FULLMER, JACK WINN SALON CLIENT

## Total Body WELLNESS

### NOW OFFERING KERATIN COMPLEX SMOOTHING THERAPY

This is a new, revolutionary smoothing system that infuses Keratin deep into the damaged hair cuticle eliminating up to ninety-five percent of frizz and curl from the hair, leaving the hair soft, shiny and luxurious. It is “skin care for your hair.” With each treatment the build up of Keratin makes the hair softer, silkier, straighter and shinier. It reduces daily styling time by making it faster and easier to blow-dry. It is gentle enough to use on all hair types and has no unpleasant odors. A great time to have the treatment done would be directly after coloring or chemically treating the hair. The color will be sealed in, leaving the hair vibrant and extending the life of the color. A treatment typically last up to three months depending on your hair type. You can consult with one of our stylists, who have been trained in Keratin Complex Smoothing System or call for a consultation.

#### Feel Refreshed

From blowouts to makeovers, we've got the beauty basis covered! Having spent many years hearing clients having to go to three or four different salons to satisfy their beauty needs, we decided to create a place with experts in each field. Jack Winn Salon has staff that only specializes in what they love doing, which makes them great at what they do. Our stylists only cut and style client's hair, our colorists only color client's hair, our make-up artists only work with make-up and beauty services relating to their specialty and our esthetician only does facials. When asking one of our experts in their field, like Megan Alderson, what she loves to do, she answers, "At Jack Winn Salon we specialize in facial sculpting (plates) which is a viable alternative to facial surgery. This technique lifts, tightens, relaxes and tones. It relieves puffiness and brings out the cheekbones for a rested, ageless look." This is a common response from any of our specialists at Jack Winn Salon & Body Center. That is why we are departmentalized.
